

CAPITAL COMPUTING SOLUTIONS

Budget for the 2023/24 financial year

When planning and budgeting for the next financial year, consider including Capital Computing Solutions for some consultancy into your plan.

Consultancy could include workshops for Workflow, or consultancy to get CRM using Content Manager up and running in your organisation. It may be training that you require or you simply want to know how to leverage the most from your investment in Content Manager and what are the next steps that can be taken.

You might want to migrate data into Content Manager from older or less comprehensive systems and need some assistance with DataPort, or I could do it for you if it is a one off exercise.

You might have sentencing or archiving to do, either physical or electronic, or both, and simply don't know where to start or need some direction. Capital Computing Solutions is available to assist.

Contact **Scott Brown** on 0439 153 858 for further information and training/consultancy availability. www.capitalcomputingsolutions.com.au
